WORLD OF RADIO HITLIST updated by Alan Roe June 3:

Hi Glenn, my latest Hitlist update
https://www.w4uvh.net/hitlist.htm

1) Albania – R Tirana: Updated link to new homepage on new website. (Thanks to Bernd Seiser-D; via ADDX Kurier contributions by Dr. Hansjoerg Biener-D, via wwdxc BC-DX TopNews)
2) Denmark – Radio 208: Deleted live stream entries (station now shut down; temporarily retaining home page/facebook links for listener reference)
3) Denmark – World Music R: Added new livestream link (Thanks to WMR Facebook page)
4) USA – World Harvest Radio: Deleted entry (no longer any such service, on either shortwave or streaming, from Family Broadcasting Corp)

The next update is scheduled for mid/late July. Best wishes and 73
Alan Roe

** BRAZIL. 9664.95, May 30 at 0623, RVM in Portuguese S7. Variable frequency, never spot on 9665.000. TE signals somewhat enhanced, also JBA carrier about 9818.54, R. Nove de Julho, always way below nominal 9820. Only two ZYs left on 31m (Glenn Hauser, OK, WOR)

** CANADA. 2749 USB, June 1 at 0240 UT, marine weather YLish voice, not readable but recognizable, vs HSNL. DXinfocentre.com shows VCS Halifax starting at 0240, 1500 watts. Pleased to be getting this much in summer condx. At 0303 recheck in French, tho VCS not shown as EE/FF, nothing else scheduled. Nothing either time on 2598 USB (Glenn Hauser, OK, WOR)

** CANADA. Correxions to previous report: 28193, VE4ARM/B info from WGB beacon roster, not QRZ.com – And it`s not VE5ARM, typo (Glenn Hauser, OK, WOR)

** CANADA. 28193 CW, June 4 at 2206, VVV DE VE4ARM/B ... E x 17. Same as May 28 log, q.v. Only one other 10m beacon heard, see USA, and no phones (Glenn Hauser, OK, WOR)

** CANADA. 93.5, June 3 at 1800 UT, snippet of Canadian news mentioning a minister, immediately fading out. I`ve just turned on caradio after Es FM DX MUF spiking 114 MHz to the NE of here, and afterwards on DXMAP I see a lot of paths between Ontario and here; and the most likely of the few full-power stations there is the CBC one, per WTFDA FMDB: CBCL-FM 93.5 LONDON ON CAN 100.0 kW H only, 267.2m, Mono NEWS/TALK, CBC RADIO ONE 93.5 FM. Kept tuning for another semihour but no sign of any other Es (Glenn Hauser, OK, WOR)

** CUBA. 5025, June 1 at 0245, R. Rebelde is off; something`s always wrong at RadioCuba. Likewise 9580 China relay, suptorted (Glenn Hauser, OK, WOR)

** CUBA. 5025, June 2 at 0615, R. Rebelde is off again, but I think was on earlier circa 0445. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, June 3 at 0624, music = noise level, but enough to tell that R. Rebelde is not off the air this time; something`s not wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 15230, June 4 at 2213, RHC S6/S8 and JBM, presumably

Portuguese. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** HAWAII. 10000, June 2 at 0445, WWVH hourly prop info was so long that the end of it about blackouts was cut off by announcement of next minute 0446. At least WWVH is propagating, and other Pacificans, NZ and Vanuatu, not much else (Glenn Hauser, OK, WOR)

** ITALY. 1322.994+, June 2 at 1950 UT, music to ``Off the Wall`` anti-Trump talk. From IRRS SW relay via AM Italia. S9 at first into UTwente, but some deep fades into noise. Like so much of its ``schedule``, IRRS does not show any specific program title at this time, so no commitment, who knows what will appear next week? Nor is it among the hundreds of programs at publicradiofan.com - but I find program website as if it`s only on WUSB:
https://www.2600.com/offthewall/
Not to be confused with sibling show `Off the Hook` (Glenn Hauser, OK, WOR)

** NEWFOUNDLAND. 6604 USB, June 1 at 0255, VOLMET from Gander. Reminder that time is running out. It`s about to be closed down: ``This change will take effect on 12 June 2025 at 0901Z Coordinated Universal Time (UTC)`` per
https://www.navcanada.ca/en/flight-planning/service-notices/2025-06-12-gander.aspx
Other frequencies are 3485, 10051 and 13270, at :20-:30 and :50-:60 past the hours (Glenn Hauser, OK, WOR)

** NEW ZEALAND [and non]. 9700 // 11725, Sat May 31 at 0617, RNZP in AM on both, and equally S9/+30, with ``Get Your Kix on Route 66`` version by The Rolling Stones! as back-announced. I`m a Rt 66 guy! having spent my first nine years in our house right next to it in Santa Rosa NM. I thought this would be RNZ`s request show, but on sked does not start until 0708: ``7:08 PM. Saturday Night - Saturday nights on RNZ National is where Paul Brennan plays the songs YOU want to hear. All music from 7 till midnight (RNZ)``. During the previous hour it`s: ``6:06 PM. Nashville Babylon - Mark Rogers offers the very best in Americana, alt country, folk, soul and blues music (RNZ)`` and with playlist: ``Artist: Rolling Stones, Track: Route 66, Composer: Bobby Troup, Album: The Rolling Stones, Label: Decca``. {Rt 66 see OKLAHOMA}

RNZP own sked shows 11725 only until 0758, then from 0759, both 9700 & 11725. This conflicts with two other 9700 stations listed in EiBi, but no sign of them: Ouargla, Algeria until 0700, and Romania in German at 0600-0630! Aoki however shows ALG ending at 06, and I rather doubt they are there at all (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 9700 // 11725, June 2 at 0610, RNZP again on two frequencies, both good unlike anything else on bands, in near-blackout. And again, this does not match what their own schedule shows, so which is ``wrong``? Sked, or axual operation?

https://www.rnz.co.nz/international/listen

20:59 - 00:00 17675 Pacific Daily
00:00 - 05:58 17675 Updated 1 June 2025 Pacific Daily
05:59 - 07:58 11725 Pacific Daily
07:59 - 10:58 9700 + 7425 Pacific Daily
10:59 - 12:58 9700 + 7425 Vanuatu, Solomon Islands, PNG Daily
12:59 - 16:50 7440 Pacific Sun - Fri
12:59 - 16:58 7440 Pacific Sat

The 1650/2059 period is very complex with DRM and DOW variations. And when they are on two AM frequencies at once, should we assume the azimuths be different? (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 11725 // 9700, June 4 at 0628, RNZP still on two

frequencies contrary to own sked which shows 11725 only until 0759 becomes 9700 +7425. Caught my ear with dead air, and a few more drops to dead air as BBC relay is ending, ``rejoining RNZ`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6924.9 AM, June 1 at 0258, distorted pirate voices. These say it`s Liquid Radio, on ``6925`` but no later than 0147: https://www.hfunderground.com/board/index.php/topic,145888.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6930 USB, June 1 at 0259, pirate music. UNID here by several, including fuzzy SSTV something about `DEMOCRATS`, and full-screen `UNID`: https://www.hfunderground.com/board/index.php/topic,145896.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6949.8 AM, June 1 at 0300, pirate music. Several IDs here as R. Free Euphonia on ``6950``: https://www.hfunderground.com/board/index.php/topic,145897.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, May 29 at 0549, JBA carrier, presumably Station YHWH running late again (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, June 3 at 0615, JBA carrier on inside random wire during storm, safe to presume it`s Station YHWH running late (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1210 kHz, June 1 at 0305 UT, KGYN, The Big Talker, 5-state, with weather forecast including Memorial Day! So must be a week old! 0306 into `Intelligence Briefing`, another far right talk show, and in the previous hour accusing Pres. Sheinbaum of being a Marxist. BTW, bigsig so must be cheating ND again instead of DA away from us and WPHT (Glenn Hauser, Enid, WOR)

** OKLAHOMA. A very vintage QSL from KCRC Enid is illustrated here, when it was running 100 watts on 1370 before 1390, apparently heard in NZ, in 1931: https://radiodx.com/?s=kcrc
Some info on that card was already outdated, marked out, corrected (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 87.9, June 3 at 1801 UT, the neighborly open carrier in $tereo is on again. Off by 2210.

95.5, June 2 circa 1945 UT, rock music lowpower pirate peaking around Garriott and Cleveland in Enid is still going, as I drive thru the area again. Not enough to capture from QRM, but fading away a few blox north (Glenn Hauser, OK, WOR)

** OKLAHOMA. I was seeking Es FM DX with lots of stuff on the maps, but all I am hearing are tornado warning coverage all over the dial, as many but not all OKC area stations are relaying one TV station audio or another. KOCO ``5`` and KOKH ``25`` are on it, but the ones I can recognize are KFOR ``4`` and KWTV ``9``. This is a rush job and many not all be correct, in the 2216-2245 UT period June 3:

KFOR ON: 88.5, 89.7, 90.1, 90.5, 94.7, 96.1, 100.5, 101.9, 102.7. Also on AM 1000, 1340 vs huge noise level so not all signals are even audible.

KWTV ON: 91.7, 92.5, 92.9, 93.3, 95.3, 96.9, 98.9, 99.7, 104.1, 107.7, and at 2242 even 104.5 which would be Woodward way out of the risk area. And 1520 KOKC like on 95.3.

Most of the gospel huxters ignored the tornado situation, with

exception of The House on 88.5 & 89.7: good for them. Coverage but not sure from which TV station: 98.1. Some hastened to resume regular programming ASAP circa 2230: 90.1, 98.1, 98.9, 100.5.

Other obs: 93.7 KSPI Stillwater stayed in rock music. 106.7 KTUZ in live? Spanish but unseemed about weather. 104.7 Ponca outside the storm area, dead air in $tereo at 2221, 2234. 105.1 stayed in stupid sports talk.

Of course, no mere radio station has its own meteorology department. One must admit that the visual element is very useful if not essential (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non] `Samantha Brown`s Places to Love` on PBS/OETA Create channel is in a marathon including this episode:

Route 66 - Missouri to Oklahoma #809 --- Samantha starts her trip with a view of the St. Louis Arch and visits Ted Drewes Frozen Custard, famous for its thick desserts. She meets author Michael Wallis, who shares insights on Route 66. Exploring Cuba, Missouri, she admires colorful murals and the Osage Trail Legacy monument. Crossing the Arkansas River, she stops at the Uranus Fudge Factory. In Carthage, she learns about a little-known Civil War battle before heading to Springfield, the official birthplace of Route 66. In Kansas, she visits Gearhead Curios, a unique pit-stop, then meets a joyful business owner at Buck Atom's Cosmic Curios in Tulsa. Finally, she reflects on the Tulsa massacre at a memorial before learning why Tulsa is known as the Route 66 capital.

Broadcast In: English Duration: 0:27:45 HD CC Additional Airings:
2:00pm, 06/01/2025 | OETA Create = 19 UT Sun June 1
8:00pm, 06/04/2025 | OETA Create = 01 UT Thu June 5
1:00am, 06/05/2025 | OETA Create = 06 UT Thu June 5
It`s hard to find full episode online rather than trailers;
https://samantha-brown.com/destinations/coolest-city-tulsa-oklahoma/
https://samantha-brown.com/episodes/season-8/route-66-missouri-oklahoma-2/
There is another ep on the next leg, OK & TX, and presumably after that will hit NM (Glenn Hauser, OK, WOR)

** RWANDA [and non]. A while ago I made a misleading comment about the KNK language abbreviation, for Kirundi/Kinyarwanda, as related to the genocide of 1994, of the Tutsi by the Hutu. That was not a language schism, as both ethnicities speak Kinyarwanda. Kirundi is the language of neighboring Burundi, presumably related but not an issue in the genocide, as I understand it. Would those who quoted that item please also publish this clarification (Glenn Hauser, OK, WOR)

** SPAIN. 15500, 15520, 17715, 15390, Fri May 30 at 2159, SNR all four in decreasing order of strength, as 17715 for Europe is much weaker than recently with reduced MUF. 15390 // 15520 at first, then all join for token English. Preview feature about a film commission, impact of tariffs on US industry and locations in Spain; no news but instead at 2201 report from Lebanon correspondent about a Spanish music festival in the mountains on May 21. By 2206 already into the film topic (Glenn Hauser, OK, WOR)

** SPAIN. 15390, Mon June 2 at 2200, token English from SNR is VP but better here on ME azimuth than the other three into UTwente, all of which are offbeam or too close. At 2210 into Maryland SDR, 15500 for NAm is the only one usable, tho much weaker S5/S7 due to degraded propagation, than usual inbooming, the others JBA, 15520, 17715; and 15390 has a LAH = low audible heterodyne never heard otherwise (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed June 4 at 2211, token English from SNR at S9+20

direct despite S American aim, almost as good as 15500 to NAm, S9+20/40. Also 15520 for ME S9+10, but 15390 to Africa is JBA S9 = noise level. Discussion of violence against women, feminist movement (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004+, May 30 at 2158, VOT not off the air, but JBA direct vs noise level. At 2236 into UTwente when measured, S9+30/40, Efsun the axentuated voicing something I can hardly understand. 2238 music. 2245 multi-lingual ID filler reel. 2247 musix. 2254 s/off as if it`s 17620 at 1230, awry at Ankara, bit of IS and off by 2255* (Glenn Hauser, OK, WOR)

** TURKEY. 9875.005-, Sun June 1 at 2040, VOT English off the back, S9+20/25 into UTwente, during `The Pulse of Turkish Foreign Policy`, clearly read fluently and rapidly, but MEGO as to subject. 2047 outro credit to a Dr. somebody, whose name one could not possibly understand unless already knowing it, ``goodbye``. 2048 music. 2053 TRTVOTVorld.com promo, music. 2057 `Letterbox`, usual hostess Cemre says it has been a busy week, people in the office getting sick, messing up work schedules, but listeners would not notice. Welcomed a new colleague in English Dept., who had been in some other dept., before that English, could not catch name. 1) Mr. Mike Pisz?, Poland, sent two reports. 2) Jayanta Chakroborty, India, notifies that 03 broadcast 26/5 had no signal on 7275 or 6165 {perhaps like 23/5 was on accidentalternate 9465 instead; don`t they read WOR/iog reports??}. But 27/5 & 28/5 they were back. She suggests that high winds in Ankara 26/5 which blew off some roofs might have been the cause. Asks her to ID a song heard at an exact time and she does. 3) Olek?, near Brest, Belarus. 4) W Bengal. 5) K. Oitana?, Japan. This and a previous one addressed their reports to ``Dear Sirs`` -- sexists! Is a 61-year-old pharmacist, SWL for 49 years. 6) Patrick --, Ireland, heard German. 7) Chris --, Canada, postal strike not yet? 8) Mario in Zaragoza, Spain, on a Spanish broadcast. 2105 show ends without a music insert, outro/intro theme; and tune-out. BUT:

11780, June 1 at 2232, I check UTwente for the next English broadcast which I don`t need to hear, missing from 11785, but incredibly on 11780.006+ instead! That will clash with Brasil, but S9+10/15 and no QRM into UTwente. Then I check Maryland SDR, and find VOT buried under silly ballgame from Brasil. What a mess! TRT had been advised to shift from 11785 to 11790 in order to avoid adjacent QRM, but instead moved onto 11780 to make it co-channel QRM! I wonder how long it will take them to correct that? (Glenn Hauser, OK, WOR)

** TURKEY. 11785, June 2 at 2200 and later chex into UTwente, no signal from VOT in English; not on 11780 either like yesterday, just traces of Brasil; nor on 11790 where they were advised to move; nor on accidentalternate 9875. Something`s always erroneous at Emirler and/or awry at Ankara (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006+, June 3 at 2211, JBA carrier direct, so VOT English seems back on proper frequency. Yes, at 2252 into UTwente when measured, multi-lingual ID filler reel, 2253 s/off as if 1230 on 17620, awry at Ankara, 4 notes of IS before chop 2254*. Very bigsig but did not get a reading before gone (Glenn Hauser, OK, WOR)

** TURKEY. 11785, June 4 at 2210, S9 VP signal direct, so VOT is again not on 11780. No further chex nor into UTwente (Glenn Hauser, OK, WOR)

** U S A. 28225.7 CW, June 4 at 2207, VVV VVV DE WB4NCT ... AL. WGB list: ``28225.7 WB4NCT - Athens AL USA EM64mt - #0 (08 Apr 2023) Note: Pwr 5w`` --- QRZ.com:
``WB4NCT USA flag USA, DAVID O AUSLEY, 1420 REDBUD ST, ATHENS, AL 35611, USA -- 10 Meter Beacon - on coordinated freq. 28.2258 mhz, 5

watts, inverted V at 30 feet in the attic. Please send email signal report to "dausley (at) yahoo (dot) com" Or if you collect wallpaper, your QSL card will receive a confirmation in return`` Only one other signal heard on 10m, beacon in Manitoba: see CANADA (Glenn Hauser, OK, WOR)

** U S A. THE END OF THE END, VOA, GREENVILLE
Sent: Wednesday, June 4, 2025 at 04:46:30 PM UTC

``Glenn, This is the last message. The two guys still at the station, Chief Engineer Macon Dail and Shift Supervisor Rex Oliver have been told their notice of termination will be forthcoming. Therefore the station is officially closed and abandoned. This, I`m sorry to say, is the end of VOA/OCB. As a former employee, it was a great experience and a fun ride. Tonight, I will face Greenville with two fingers of single malt and drink to its service. Then I will face DC with two other fingers. Please print this name and all. Be well my friend and stay in touch. 73, Glenn Swiderski, W7GS/8, Former transmitter engineer Greenville``

Dear Engineer Glenn and WOR group, How heartbreaking it is to hear these stories on a daily basis on the demise of VOA. Neither Kari Lake or the President care or have a clue regarding the reckless actions they have taken to destroy a much needed and beloved American asset. I remember the 1960's with the Breakfast Show hosted by Pat Thoren heard by more than 300 million people along with great news and jazz programs. We all grieve with you. Radio New Zealand ran an hour's program from the BBC about Voice of America's demise. I'm very worried about what will happen to these 500 KW transmitters. If the government wants to save money, it doesn't make sense to destroy VOA's assets but we know this nothing less than a personal power grab. It is not about saving taxpayers money or streamlining the budget. With heartfelt love and prayers. Tom Roberts, PhD, DD, KF7PKG, Fellow Broadcaster`` (via Glenn Hauser, WOR)

WOR - APPLE PODCAST TITLES PROBLEMS

``Hi Glenn; I listen to the show via Apple's Podcast platform. The site is posting your shows with the proper show number but lists the date for the past several shows as Dec 31 1969! Thought I was gonna get a retro re-run, but no they are your latest's shows! Keep up the good work! Mark Limbruner, Pittsburgh PA``, May 31

Glenn, I have confirmed an issue with the podcast. Some settings have changed on either your or my server (maybe because of some recently applied update). I cannot come up with a quick fix, but will work on this in the next few days. The feed(s) may be down or erroneous for a few days in the meantime. Keith Weston``, May 31

Mark, Tnx for letting me know. My podmaster says he`s working on correcting it. Glenn

``Glenn, A bigger fix is needed and will take some time to script and test. As a result, the podcast may be offline for about 7-10 days. If I can speed this up, I will. You may want to alert your subscribers and readers in some way. There's no need to send me error reports until after a potential fix is in place. Best, Keith``, June 4

Keith, Tnx for taking care of this. Not that you need anything more to fix, but checking the other/related podcasts I have linked at http://www.worldofradio.com/audiomid.html

I see that tunein.com also shows 1969 date for as yet unavailable 2298 but otherwise seems OK;
Feedburner goes to a document tree

Maybe we don`t need to keep these others?
RMRC is OK.
YouTube does not show the latest on top, but a seemingly random-order selection mostly of 2024
Of course, I myself have not actually subscribed to any of them.
Glenn

``Yep. That seems about right. All those are fed by the same now error-throwing master RSS feed. The master list that creates all these other selections is at fault and will need to be entirely rebuilt. I'll keep you posted. -- Keith Weston`` https://keithweston.com

There are some other podcast options, see top of homepage
http://www.worldofradio.com
or
https://www.worldofradio.com/audiomid.html

These seem OK:

Thanks this week for financial support from Terry Colgan, N5RTC of Texas Radio Shortwave, via PayPal in US funds but not necessarily, to woradio at yahoo.com, ``thanks for your hard work, keeping us up-to-date on all things broadcasting.``

One may also contribute by MO or check on a US bank to: Glenn Hauser, P O Box 1684, Enid OK 73702 USA (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2297 monitoring: confirmed first SWBC, Friday May 30 at 1300 on WRMI 15770, S6/S8 direct. This time there was a canned ID preceding, ``Calling Managua``, etc., etc.

Confirmed Friday May 30 at 2030 on IRRS SW via AM Italia, 1322.994+, S8/S9 and noisy into UTwente. Preceded by Wavescan and a few seconds of ``UN News Today``, IRRS donation promo.

Also confirmed Friday May 30 at 2200 on WRMI 9955, S9+20 direct but undermodulated.

Missed checking Fri May 30 at 2230 on SW Radio, Germany, 3975; anyone hear it? Next:

0300 UT Saturday WTWW 5085 [sometimes; on at 0114, off 0212, 0239];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRMI 9955 to SSE [also web-, phonecast];
1900 UT Sunday IRRS SW via AM Italia 1323v;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2297 monitoring: not confirmed UT Sat May 31 at 0300 on WTWW since 5085 is still off the air altho was on a couple hours earlier. I previously suggested that if missed UT Sat they might run it instead UT Sun at 0300; but don`t count on it.

Confirmed Saturday May 31 at 1452 the 1430 on SW Radio, Germany, 6160.001–, S8/S9 into UTwente.

Also confirmed Saturday May 31 at 1600 on WRN North America stream.

Also confirmed Saturday May 31 at 1730 on SW Radio, Germany, 6160.000+, S9/+5 but storm noisy into UTwente; also on 3975 a few words behind, S8/S9 and more noisy into UTwente.

Also confirmed Saturday May 31 after 1930 on WRN North America stream.

Also confirmed Saturday May 31 at 1945 about 4 minutes into so started circa 1941 the 1930v on WA0RCR, 1860 AM, MO, S7 and noisy into K9VD remote in Jerseyville IL.

Also confirmed Saturday May 31 after 2000 on WRN Europe stream. Next:

2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRMI 9955 to SSE [also web–, phonecast];
1900 UT Sunday IRRS SW via AM Italia 1323v;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];

2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2297 monitoring: confirmed Saturday May 31 at 2236 the 2230 on WRMI 15770, S7/S9 into UTwente where it`s aimed, but with storm crashes right over Netherlands.

Also confirmed UT Sunday June 1 at 0302 about 2 minutes into so the 0315v started early circa 0300 on WA0RCR, 1860 AM, MO, S9+20 direct about equal to storm noise level.

Have not reconfirmed the Sun 1030 on WRMI 9955 for some weeks, as I endeavor to zzzz at that time, but June 1 I happen to awaken, to find NO signal at 1045 or 1050, but *1055 with IS & ID loop. Presumably WOR still on the System C webcast. WRMI skedgrid now updated June 1 does show 9955 not until *1100, both by transmitter and system programming.

Confirmed Sunday June 1 at 1900 on IRRS SW via AM Italia, 1322.995, S7/S8 into Parma SDR. Next:

2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2297 monitoring: confirmed Sunday June 1 at 2142 the 2130 on SW Radio, Germany, JBA on 6160.002+ into UTwente but S9/+10 on 3975.002, with local storm noise.

Also confirmed Sunday June 1 at 2330 on WRMI 9455, S9+10/20 into Maryland SDR.

Also confirmed UT Monday June 2 at 0030 on WRMI 7780, S9+20/35 into S Texas SDR.

Also confirmed UT Monday June 2 at 0300 on Area 51 webcast, not WBCQ 5130- which switched to a bit of music before chopoff. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2297 monitoring: also confirmed Monday June 2 at 1930 on SW Radio, Germany, 3975.002-, S8/9+5 into UTwente; and JBA on 6159.999+ both with hets of different pitches, unknown sources.

Also confirmed UT Tuesday June 3 at 0330 on WRMI 7780, S9+20/30 into S Texas SDR.

Not confirmed Tuesday June 3 at 1301 on WRMI 9955, JBA S7 direct, probably but can`t be sure it`s my voice. At 1300 sharp I might have been able to recognize some notes from WOR theme.

Confirmed Tuesday June 3 at 1423 the 1400 on WRMI 9955, S9+30 into Georgia SDR, while JBA direct.

Could not check 2000 UT Tuesday IRRS SW via AM Italia 1323v as computer and internet off during local storm. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2297 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard's listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees, World of Radio #2297, [WRMI]:
9455 kHz, empty frequency, 2330, nothing heard, 2358, June 1 UTC 2025 [Sun]
9395 kHz, 2330-2345, empty frequency, 2359, June 3 UTC 2025 [Tue]
(Lemke, Richard -AB)`` -- both were certainly on air, but bad propagation.

Confirmed Tuesday June 3 at 2330 on WRMI 9395, S9+40 into Georgia SDR.

Also confirmed Tuesday June 3 at 2330 on SW Radio, Germany, 3975.003, S9+20 into UTwente.

Also confirmed Wednesday June 4 at 1930 on SW Radio, Germany, 6160.000+, S9+10/15 and 3975.002+, S9/+15 into UTwente.

Also confirmed Wednesday June 4 at 2100 on WBCQ 7490 -74 Hz = 7489.926, S5/S7 into Maryland SDR, VP in noise level; the NH SDR was busy. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 6160.

Thanks this week for financial support from Terry Colgan, N5RTC of Texas Radio Shortwave, via PayPal in US funds but not necessarily, to woradio at yahoo.com, ``thanks for your hard work, keeping us up-to-date on all things broadcasting.``

One may also contribute by MO or check on a US bank to: Glenn Hauser, P O Box 1684, Enid OK 73702 USA (Glenn Hauser, OK, WOR)

** U S A. 5920, WTWW, June 1 at 0250-0254 UT is putting out diffuse splatter, like happens sometimes from 9930. I match the extremely distorted mod peaks on another receiver with TOMBS on 5920, and NOT matching 5890 WWCR which is also TOMBS but never synchronized. Worst peak around 5965, but audible in these rough ranges: 5955-5976, 6000-6017 QRMing RHC 6000 which already has enough problems, 6030-6060 QRMing HCJB 6050. Not so much on lower side but 5855-5880 or so. The other WTWW, 5085 is off (Glenn Hauser, OK, WOR)

** U S A. ``WTWW: transmitter --- Glenn, Defective transmitter is up which means that 5085 should be up as normal. George McClintock``, 1459 UT June 3

``Glenn, The operator forgot to bring up 5085 last night. He is not use to bringing up 5085. I have been doing it for some time in the past. Now that both Continental transmitters are working correctly, it is hoped that we can get back to some kind of normal. Thanks for putting up with us. George McClintock 6-4-2025``, 1510 UT (via Glenn Hauser, WOR)

** U S A. Pre-AAAWWW chex of WBCQs, May 30 at 2344, into NH SDR: 3265 off. 5130 JBV carrier jumping between -50/-100 Hz, possibly exciter only? 6160 also trace of something. 7490 -76 Hz S9/+10 with FKB. 9330 S7/S9 WLCR with RTTYditty on 9332.0. At *2355 as usual 5130 -85 Hz = 5129.915 cuts on with IS & ID loop. 2358, 6160 -72 Hz = 6159.928 now on at full strength with music but from 0000 dead air. UT Sat May 31 at 0000, WTO theme and `AAAWWW` starts, first over-exclamation, ``Hey,

get flushin```. Could not copy the single word later. 0004 A&A are again in same studio, Florida. Reminds Jason back in ME to be sure they are on ``all`` frequencies and streaming -- but *still* not on 3265, or 6160, only 5130, 7490, 9330. Says admin is giving the country an enema -- you know what that means. Politically charged environment not just in USA but everywhere. 0011 accuses Harvard of anti-Semitism. Declares there are only two sexes as a god ordained for mammals like us. 0028 gospel? tune. 0033 reading article about plans to resume SW in PNG. 0034 check, 6160 is still dead air! and 3265 is still off. 0035 endorses T`s attempt to kill VOA, NPR, PBS since they have become ``a little bit communistic`` - Enough of that for a while. 0050 laments that southern Maine is run by communistic democratic Moonbats, unlike the good people in northern Maine. Also condemns AOC, Pelosi, Schumer, why keep voting them in? 0052 items from new FRW just published including some from gh but never credited and does not do them justice. 0057 some other email. 0058 prayer. 0059 my internet connexion is lost, tsk; but back in a few minutes It was too late to bother tuning in SW direct. For more rational political coverage during the same original AAAWWW hour, may I recommend `All In` on MSNBC (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 670, June 1 at 0220 UT am getting CCI, two stations making a slow SAH, one of them certainly WSCR Chicago, but I hear Fox Sports Radio mentioned, which rules out WSCR, right? Listed as ISR = CBS, only, and NRC AM Log does not show any other 670 with any sports network in English, let alone Fox, so? Wikipedia also shows no 670 with FSR (Glenn Hauser, OK, WOR)

** U S A. Tim Hall replies to my unID 670: ``To the best of my knowledge, KHGZ is still Fox Sports. See``
https://en.wikipedia.org/wiki/KHGZ

This image was posted to the Fox Sports Radio - Hot Springs Facebook page on March 26th:
Arkansas Stations includes: ``Glenwood 670 AM - Fox Sports`` ---
Indeed, NRC AM Log showed it instead as C&W, Silent as of 11/23, ND 5 kW daytimer. So at 0220 UT cheating post-sunset (Glenn Hauser, OK, WOR)

** U S A. 810, May 31 at 0626 UT, strong and steady dead air at S9+28, presumably usual dominator WHB Kansas City failing again to diffuse stupid sportstalk. But there is a JBA signal underneath with soft music, 0626 unexpected ID as ``-- 95 FM, 810 AM``. That`s probably KLVZ Brighton CO, per NRC AM Log, U4 2200/430 oldies, ``Legends 95.3 & AM 810`` - I don`t see any other 810 correlating with FM 95-something. WHB is U2 50/5 kW (Glenn Hauser, OK, WOR)

** U S A. 900 kHz, May 31 at 0659 UT tune-in, immediate ID as ``AM 900 WKDA Lebanon`` TN, which is U1 5000/136 watts (Glenn Hauser, OK, WOR)

** U S A. 1510 kHz, May 31 at 0636 UT, horrible collision, two talkers at equal level. Besides WLAC Nashville, the other is surely KCTE Independence MO, still cheating 10 kW daytimer! As previously logged March 20 (Glenn Hauser, OK, WOR)

** U S A. 91.5, June 3 at 1810 UT on caradio, KSNS 96 kW vertical only, Medicine Lodge, Kansas is *still* transmitting a very off-putting big hum along with religious talk, 1820 program as `Our Daily Bread`. This should be a big giveaway for anyone getting it as DX. $tereo pilot is on but sounds mono. Don`t hear much music from them despite original slogan ``Keep Singing New Songs``.

92.9, June 3 at 1809 UT, ``Wichita Falls` #1 Hit Music Station``, i.e. KNIN-FM, 100 kW, 114 m, ``92-9 NIN`` the listed slogan which they might utter too. JBA fringe from TX overcoming OK stations, notably

K225BN, `The Edge` relay of 92.5 KOMA-HD2, 200 watts (Glenn Hauser, Enid OK, WOR)

** VANUATU. 9960, May 29 at 0547, JBA carrier, so R Vanuatu is back on air; on indoor random wire during lightning storm. However, Ron Howard reports:

``May 29 (Thursday UT) am hearing Radio Vanuatu on 9960, BUT is only with a strong open carrier, with no modulation (no audio!) from 0600+ via SDR remote in NZ. Again have notified the station. Radio Vanuatu on 9960, at 0658* UT cut off the air; switched to 3945, but again only with an open carrier with no audio. At 0820 UT, Radio Vanuatu on 3945, is still just an open carrier with no audio. Radio Vanuatu (3945) continues with just an open carrier (dead air) at 0920 UT.
Ron, Monterey, Calif`` - and Zacharias Liangas: ``1035z with only carrier`` (Glenn Hauser, OK, WORLD OF RADIO 2297)

** VANUATU. 9960, May 30 at 0621, S7/S9 of dead air still from R. Vanuatu. Other reports:

``Checking 9960 sporadically this evening (about 0310-0550Z 5/30) via the northern NZ SDR, there's been a carrier on throughout, much weaker than the past week), but no audio (Chuck Albertson, Seattle, Wash.)``

``0631, 9960 just the carrier of -69dbm in Townsville Australia`` - Zach Liangas

``0745 UT and still open carrier on 9960; did NOT switch to 3945 at 0658, on May 30.
Nothing new from engineer at the station. Ron Howard``

``Hi Glenn - May 30, at 1805 UT, on 9960 kHz is still just an open carrier with no modulation (no audio). Ron`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, May 31 at 0620 & 0705, *still* dead air only from RV, S8/S5 direct. Zach Liangas also reports at 1021 UT: ``Once again in Townsville with only carrier from Vanuatu, 1016 LT {sic} 31/5 in the spectean`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, June 2 at 0444, R. Vanuatu JBA but I can tell it`s managing to modulate some talk. 0607 recheck S4/S5 and almost readable. Ron Howard reported:

``0055-0100* UT, June 2, via NZ SDR remotes; finally heard again with good audio till suddenly went off the air; listened for about 10 minutes and remained off the air; a brief check later at about 0200 found no signal. Also checked 2485, 3945, 5040 and 7260, but no signal was heard. Again I contacted the station. - - - June 2, at 0132 UT, received a quick reply from Pryce Aptenbel:

"Hi Ron, Thank you for your message, and my apologies for the dead air over the weekend. There was a brief interruption caused by an issue with one of the Optimods that provides audio to our HF and MF transmitters. However, we managed to resolve the issue. Thank you once again for your continued support and for always tuning in to Radio Vanuatu on shortwave. Kind regards," -- Now from 0245+ UT, a good signal on 9960, in French. Ron, Monterey, Calif.`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, June 4 at 0631, R. Vanuatu is on with some music modulation, S7 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.49 approx., May 31 at 0630 UT, mystery JBA carrier hetting 810 as I am logging WHB/KLVZ (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1690, May 30 at 0638-0640+ UT, very strange sound like a reel-to-reel tape fast forwarding or rewinding across the heads. Not adjacent QRM. Mixed with another station in normal English talk. The three closest 1690s normally heard are: WVON Chicago, WMLB Atlanta, KDMT Denver; all of them licensed to a suburb, why? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Another reply about this: ``Glenn, When I see the carrier on 6938, it is almost always accompanied what I call “the ladder” that stretches from a hair over 6942.5 to about 6946. Although I have recorded hours of broadcasting on 43 meters, and check 6938 regularly, including using USB, I have never seen or heard any audio.

In this shot at around 0145 on 26 May, the 6938 signal is about 30 dB above the background noise – plenty for something to be heard or seen on the waterfall if there were something to see or hear. The yellow band is the bandwidth (1350 Hertz) of the receiver tuned to 6938.000. Ron Hunsicker`` (via Glenn Hauser, WOR)

UNIDENTIFIED. 9339.57, May 30 at 0626, S5/S6 carrier, suspect spur from WLCR/WBCQ 9330 but it`s only S8/S9, no modulation audible and no match on the minus side. Previously caught them May 18 with a spur on 9346.04 which did modmatch 9330 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9339.58, May 31 at 0614, JBA carrier S4/S6, again suspect spur out of 9330 WBCQ which is only S7/S9 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9340.41, June 2 at 0611, JBA carrier with trace of modulation? Suspected spur out of 9330 WBCQ, but it`s axually weaker, S3/S4. Nothing listed on 9340 except CNR1 jamming and Sound of Hope (Glenn Hauser, OK, WOR)
